

PROMOTING SAFETY AND QUALITY WORKMANSHIP

ENVIRONMENTAL POLICY

DWG CONTRACTING plans and manages its operation to ensure minimum impact on the environment. It will continue to meet all industry and statutory environmental standards and requirements.

In applying this policy, activities will be governed by the following principles:

- Every activity shall be planned so that environmental risks and consequences remain acceptable.
- DWG Contracting will meet the environmental standards imposed by state and local regulatory authorities, and where possible will exceed these standards.
- Employees will be encouraged individually and collectively to foster a sense of responsibility for the protection of the environment.
- All sub-contractors and their employees will be obliged to comply with this policy while under contract to DWG Contracting.
